PERFECTLY PORTABLE

Whether you're looking for a lightweight laptop for frequent travel or just need a compact PC within easy reach around the house, the Y Series PC is a great option at only 3.23 lbs. Its thin profile and compact 11.6" screen size make it a cinch to tote or easily slip in and out of carrying cases.

A MORE INTUITIVE KEYBOARD

Practical innovation is a cornerstone of Sony's vision, and our keyboards are no exception. Designed for ease of use, not only does the Y Series laptop feature a full-size keyboard unique in such a small computer, but the spacing between the keys is precisely engineered to create a comfortable and intuitive typing experience.

TAKE IT TO THE BIG SCREEN

Whether you're streaming your favorite TV shows or sharing photos and home videos, the VAIO® Y laptop lets you view content on your compatible HDTV at an incredibly high level of resolution. An HDMI™ output delivers both your video and audio to compatible TVs and displays via a single cable[9], providing the optimal digital connection.

The perfect size at just 3.23 lbs, the VAIO® Y laptop is built to go with up to 3.5 hours of standard battery life[4]. And as a defining touch to this stylish PC, its LED backlit display delivers the brilliant color and vivid detail you expect from Sony.
